I got to level 85 while playing Blackthorn Vale. I found a black tree when I went inside a little sub-level, and it was set up for "Heal 1000 Health every 2 ticks". However, once I defeated the boss and used the black tree, it didn't work. It never went back to "Heal 100 Health every 2 ticks". Why didn't it work? I was also using an extra oasis when I got the black tree, but I don't know if it was related to my problem. A: It was because the Black Tree was associated to the Oasis, so it was healing the player and not the oasis. Your information is secure with us.
